

Working with Communities

Indigenous Culinary of Associated Nations

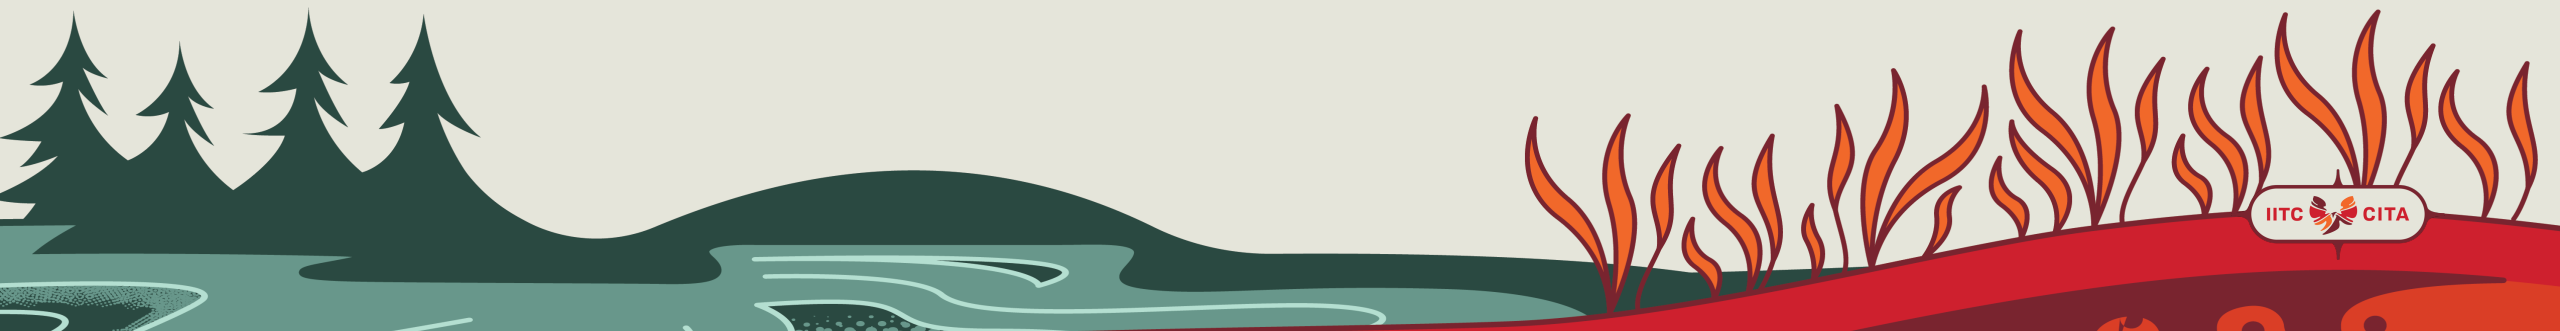

INDIGENOUS CULINARY
of Associated Nations

Mission

To connect, influence and share community through genuine Indigenous food experiences.

Vision

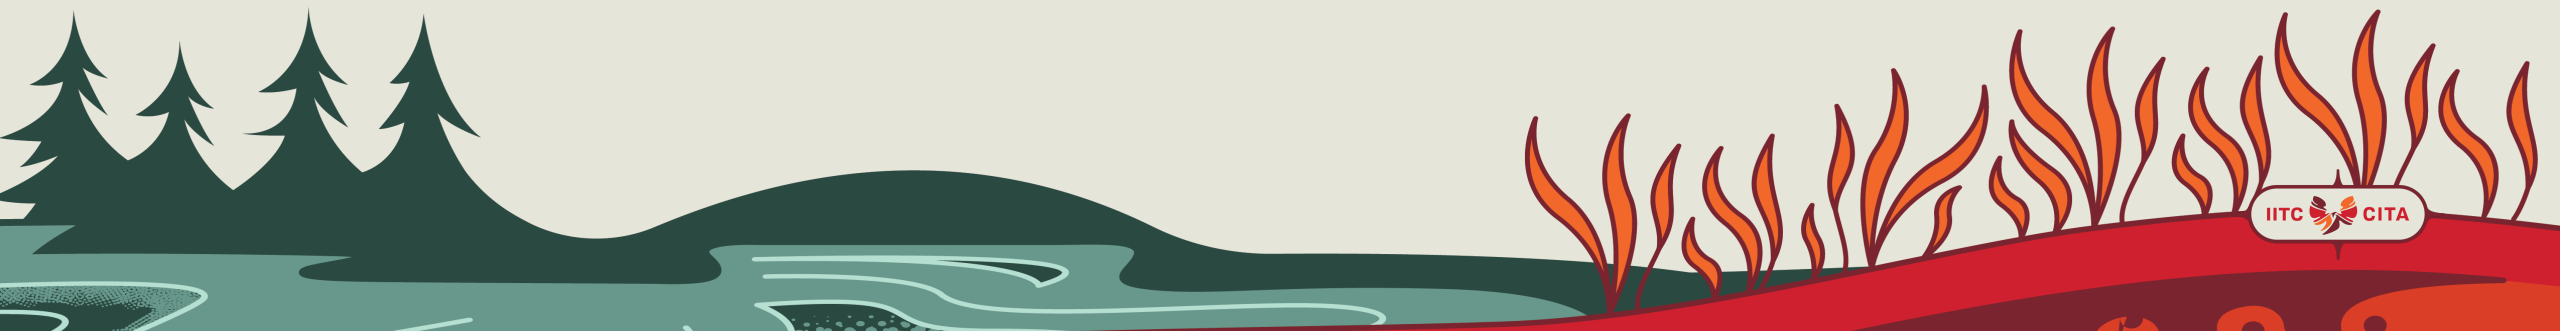

A world where Indigenous food is not a dish served for one but a cultural feast and celebration of Nations.

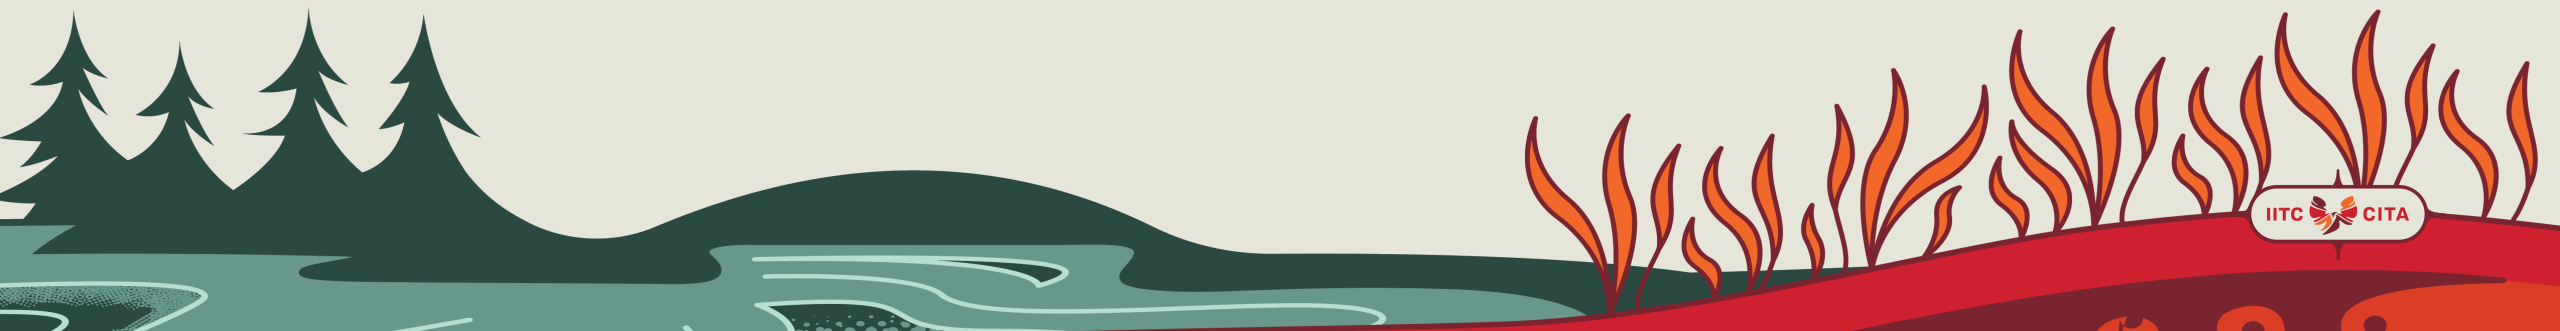

Today's Session

Join the Indigenous Culinary of Associated Nations (ICAN) and chefs from their network as they share how they work with their communities. Enjoy tea served before the session by members of the Cooks with Stones organization. Come with questions about how Indigenous Culinary can be activated in your community!

What will we learn?

- Lead with values
- Work better with your community
- Set your community up for success
- Create culinary products & experiences visitors are looking
